Materials:

Approximately 150 yards of fingering-weight yarn

Sample uses SWTC Tofutsies (50% superwash wool, 25% Soysilk, 22½% cotton, 2½% chitin) in color #731 - Ten Foot Tall.

US0 (2mm) needles or size needed to obtain gauge

Gauge:

10 stitches/14 rounds per inch in stockinette stitch

Sizes:

Foot circumference = approximately 4"

Toe

Using your favorite toe-up method and leaving a 16" tail, cast on three instep stitches and three heel stitches. Knit each stitch with both the working yarn and the tail, ending with 12 loops on the needles (each tail loop is counted as its own stitch). Divide these 12 stitches over your selected needles and place a marker at the start of the instep stitches to indicate the beginning of the round.

Round 1: *K3, place marker; repeat from * to end of round.

Round 2: *K-fb, knit to next marker; repeat from * to end of round. 16 stitches.

Round 3: Knit.

Repeat Rounds 2-3 an additional 6 times. 40 stitches.

Foot

There are now 40 stitches on the needles. Begin working the instep stitches in *Eyelet Rib* from the written instructions below while continuing to work the heel stitches in stockinette stitch. Work until the foot from the tip of the toe to the needles measures approximately 1" less than the desired total length, ending with Round 3 of pattern.

Eyelet Rib:

(over multiple of 4 stitches and 4 rounds)

Round 1: P1, *k2, p2; repeat from * to last three stitches, k2, p1.

Round 2: P1, *k2tog, YO, p2; repeat from * to last three stitches, k2tog, YO, p1.

Round 3: Repeat Round 1.

Round 4: P1, *YO, SSK, p2; repeat from * to last three stitches, YO, SSK, p1.

Heel

Work across instep stitches in Round 4 of pattern. The heel will be worked back and forth on the 20 heel stitches.

Shape Bottom of Heel

Row 1 (RS): Knit to last stitch on needle, W&T.

Row 2: Purl to last stitch on needle, W&T.

Row 3: Knit to stitch before wrapped stitch (do not knit across any wrapped stitches), W&T.

Row 4: Purl to stitch before wrapped stitch (do not purl across any wrapped stitches), W&T.

Repeat Rows 3 & 4 an additional 5 times - there are now 7 wrapped stitches on either side of 6 unwrapped center stitches.

Shape Top of Heel

Row 1 (RS): Knit to first wrapped stitch (do not knit across any wrapped stitches), lift wrap RS, turn.

Row 2 (WS): Sl1, purl to first wrapped stitch (do not purl across any wrapped stitches), lift wrap WS, turn.

Row 3: Sl1, knit to next wrapped stitch (just past the stitch unwrapped on the previous RS row), lift wrap RS, turn.

Row 4: Sl1, purl to next wrapped stitch (just past the stitch unwrapped on the previous WS row), lift wrap WS, turn.

Repeat Rows 3 & 4 an additional 4 times - a single wrapped stitch remains on either side of heel.

Next Row: Sl1, knit to last wrapped stitch, lift wrap RS, but do not turn. You should be at the beginning of the instep stitches.

Next Round: Work instep stitches in pattern as established; lift wrap RS, knit to end of heel stitches.

Techniques

Note: These are abbreviated text-only versions of the technique descriptions found in the book. Feel free to use a different method if you prefer.

W&T: Wrap and turn is a technique used in short-row heel and toe shaping to help prevent holes in the sides of the heel. There are a number of different methods of wrapping and turning - this is the one I use for my socks. Unless otherwise indicated, all stitches should be slipped as if to purl (without twisting).

Wrap on RS of work: Leaving yarn in back, slip next stitch to right needle. Bring yarn between needles to front of work. Slip stitch back to left needle wrapping the yarn around the base of the stitch. Bring the yarn to the back of the work between the needles to complete the wrap. Turn the work to begin working across the WS.

Wrap on WS of work: Leaving yarn in front, slip next stitch to right needle. Bring yarn between needles to back of work. Slip stitch back to left needle wrapping the yarn around the base of the stitch. Bring the yarn to the front of the work between the needles to complete the wrap. Turn the work to begin working across the RS.

Lift Wrap RS: Lifting wraps hides them and completes the short-row process. To lift a wrap on a RS row or round, use the tip of the right needle to pick up the wrap from the front side and lift it onto the left needle next to the stitch around which it was wrapped. Knit the wrap and its corresponding stitch together through their back loops.

Lift Wrap WS: To lift a wrap on a WS row, use the tip of the right needle to pick up the wrap from the back side (RS of work) and lift it onto the left needle to the left of the stitch around which it was wrapped. You may be able to get a good result by simply purling the stitch and the wrap together. If you find, however, that the sides of your heel are looking significantly different, try a SSP with the wrap and the stitch (slip the stitch as if to knit, then slip the wrap as if to knit, slip them both back onto the left needle and purl them together) to make it more symmetrical.
